PENCIL SOLDERING IRON

KWIKHEAT'S Smaller, Lighter Pencil Iron for Densely Packed Printed Circuit Production.

Only 7½ inches long . . . less than 3 oz. weight! This really small iron is ideal for general precision use in large or small shops. Heat insulated handle. Combination of wattage and tip size gives proper temperature for job.

Built-in Vanatta Automatic Thermostat

## THERMOSTATIC MODELS

KWIKHEAT TYPE 300  
225 WATTS — 115 OR 230 VOLTS — AC ONLY

KWIKHEAT TYPE 200  
150 WATTS — 115 VOLTS AC ONLY

## REAL PRODUCTION IRONS

No. 200 lightweight and No. 300 heavy duty irons are both real production tools for high speed soldering. Tips are easily replaced with a screwdriver, or wrench.

## HOT IN 90 SECONDS

Very high watt density with less heat radiation, under complete control of built-in thermostat.

## TEMPERATURE

No. 200 is factory preset to 700°F for intermittent standby work or 800°F for constant high speed soldering. No. 300 can be preset to any temperature between 275° and 875°F, at additional charge of \$1.00 each for 1 to 49 irons or 50c each for 50 to 99 irons. No extra charge for 100 or more. Alloys used reduce temperature creep.

## CORROSION RESISTANT

Tips, core assemblies, and outer shells are made of stainless steel or plated forged tellurium copper alloy.

## KWIKHEAT TYPE 200

150 WATTS — 115 VOLTS AC ONLY

|   |             |
|---|-------------|
| Weight with Tip   | 7½ oz.      |
| Shipping Weight with ¾" x ¼" dia. Tip and Resting Stand | 1 lb. 2 oz. |
| Length with ¾" x ¼" dia. Tip                            | 12¾"        |
| Length of Heater Cord                                   | 6 ft.       |

## LIST PRICE

|                        |        |
|------------------------|--------|
| Iron complete with Tip | \$9.95 |
| Replacement Element    | 6.95   |

## KWIKHEAT TYPE 300

225 WATTS — 115 OR 230 VOLTS — AC ONLY

|  |        |
|--|--------|
| Weight with Standard No. 1 Tip                   | 14 oz. |
| Shipping Weight with No. 1 Tip and Resting Stand | 1½ lb. |
| Length with No. 1 Tip                            | 13"    |
| Length of Heater Cord                            | 6 ft.  |

## LIST PRICE

|   |                  |
|---|------------------|
| Iron complete with Tip                              | \$14.95          |
| For other AC voltages or with 3-Conductor Cord, add | \$2.75           |
| Replacement Element                                 | \$10.85          |
| Tips, according to style                            | \$1.80 to \$2.70 |

## TYPE 200 TIPS

## 9 INTERCHANGEABLE TIPS FOR NO. 300

## #20 ANTIFREEZE COMPOUND

A lubricant for all soldering iron tips. Prevents sticking, increases conductivity between tip and core.
